

Mobile Scanner 1128T

UHF RFID MOBILE READING TERMINAL

2016

1128T is a powerful hand reader for RFID track and trace systems commonly used in laundry operations. The intended use can vary depending on the workflow.

- Check-in clean check-out soiled linen at remote locations, synchronizing information over GSM, WiFi, Bluetooth networks
- RFID bulk-scanning and barcode scanning capable wireless peripheral for RFTT Ship Port application facilitating flawless dispatch operations
- Excellent raw scan capability, accurate scan options on-the-go

RFTT client software operating on any Android device, readily available at GooglePlay allows efficient data transfer and GPS signature using GSM networks.
